

Crowds flock to tour new hospital

OVER 200 people attended an open day at the new Migdale Hospital at Bonar Bridge on Wednesday.

NHS Highland's locality general manager for Sutherland, Georgia Haire, said: "We were absolutely delighted with the number of people who turned up to view the new hospital and the interest they showed in how it will be used. We were also very pleased with all the positive comments we received about the facilities they were shown."

The new hospital has been built at Cherry Grove in the centre of the village at a cost of more than £8 million to replace the existing 150-year-old hospital building. Patients and staff will move into the new facility on June 30.

Patients and staff move into the new hospital in three weeks' time.
